Harry:

Because it is important that documentation be made of all the steps taken in the FOIA relief process, I have prepared a brief memorandum from [] to you implementing the Office of Security file designations approved by the Director. This will establish a record that implementation took place only after review by our oversight committees.

Jim:

The Director of Information Services has prepared the attached memorandum for your signature. It will serve to implement the CIA Information Act with regard to the Office of Security file designations approved by the Director and also as documentation that implementation took place only after review by our oversight committees. A letter from Chairman Boland and a memorandum for the record posing no objections by the SSCI also are attached.

MEMORANDUM FOR: Director of Information Services
Director of Security

FROM: Harry E. Fitzwater
Deputy Director for Administration

SUBJECT: File Designation Under the CIA Information Act

1. As you know, the DCI has approved the Director of Security's recommendation that three categories of files be designated as exempt from search, review, publication, and disclosure provisions of the Freedom of Information Act. In accordance with prior agreement, these file designations were provided to the Agency's oversight committees for review before implementation.

2. We now have responses from both the Senate Select Committee on Intelligence and the House Permanent Select Committee on Intelligence posing no objections to the designations. Therefore, you should now proceed with implementation effective this date.

MEMORANDUM FOR THE RECORD

FROM:

Legislation Division
Office of Legislative Liaison

SUBJECT: Office of Security FOIA Designations

1. In late January of 1985, I contacted Gary Chase, Chief Counsel to the SSCI, regarding the list of categories within the Office of Security that the DCI approved as exempt from the FOIA requirements of search, review and publication. These file categories had been provided to the Chairman and Vice-Chairman of the SSCI on 4 January. Mr. Chase informed me that the SSCI had no objections to designating those categories as exempt from the FOIA.

2. Mr. Chase went on to state that it is very important that the General Counsel of CIA examine closely the designations, and that in the document designating DO and DDS&T files, the General Counsel's concurrence should be indicated.

Honorable William J. Casey
Director of Central Intelligence
Washington, D.C. 20505

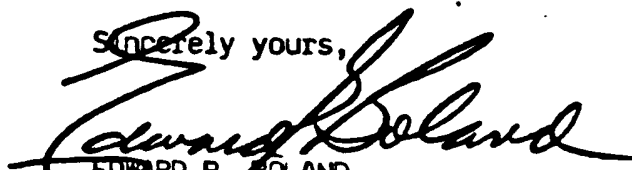

Dear Mr. Casey:

This is in response to the Agency's submission of the Office of Security operational file exemptions you approved on December 12, 1984 under the Central Intelligence Agency Information Act (Public Law 98-477). A review of the exemptions shows that they are consistent with the Act and its legislative history. Accordingly, the Committee has no objection to their taking effect.

The Committee looks forward to reviewing the operational file exemptions for the Directorate of Operations and the Directorate for Science and Technology.

With every good wish, I am

Sincerely yours,

EDWARD P. BOLAND
Chairman
